

ENJOY THE BEST OF  
BOTH WORLDS WITH

DILITE<sup>®</sup>

When it comes to signage, digital printing, screen printing and photo mounting, stay out in front with **Dilite**, the aluminium composite display that is a real winning performer.

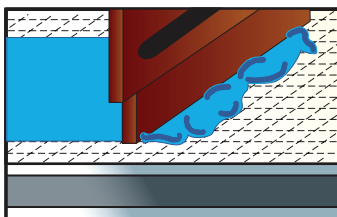

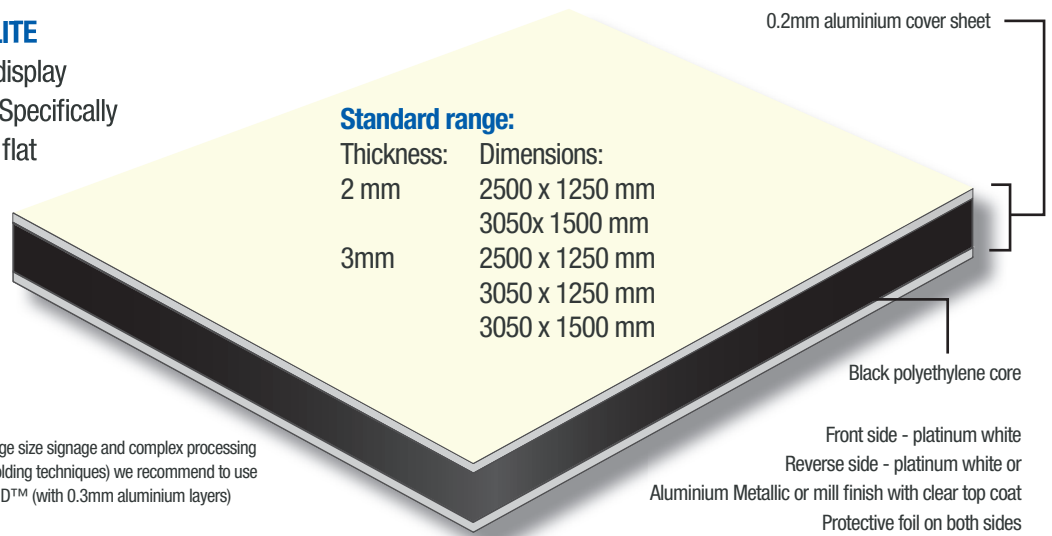

# DILITE®

## QUALITY AT A BUDGET PRICE IS WHAT MAKES DILITE THE RIGHT CHOICE FOR ALUMINUM COMPOSITE DISPLAY PANELS

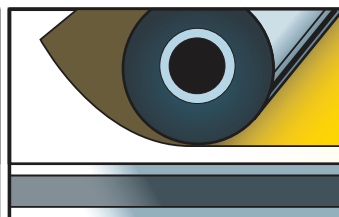

Performance and price driven, **DILITE** provides an innovative economic display panel that delivers quality results. Specifically developed for interior and exterior flat applications **DILITE** is ideal for:

- Signage
- Direct digital printing and screen printing
- Display and exhibitions
- Interior applications
- Hoardings
- Photo mounting

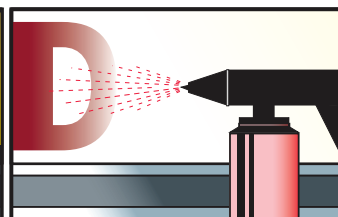

For large size signage and complex processing (e.g. folding techniques) we recommend to use **DIBOND™** (with 0.3mm aluminium layers)

Screen printing

Laminating / photo mounting

Lacquering

Simple sign-applications

### Technical Data Dilite®
